Why is the district proposing a renewal levy for educational programs and operations?

- Washington State does not fully fund K-12 education. The severe budget cuts of the past 5 years have increased BISD’s reliance on local support.
- The EP & O Levy represents 24% of the district’s General Fund budget (up from 21% in 2008-09).
- BISD ranks in the bottom 35% of the state in total per pupil revenue (192 out of 295 districts in 2011-12, the most recent year for state comparison data).
- The WA State Supreme Court has ordered the Legislature to increase funding for K-12 education. It will likely be several years before BISD receives a significant increase in funds, since priority is given to high poverty schools.

Why is the district proposing a renewal levy for technology?

- The state does not provide designated funds for technology. Local funds support expenses for almost all instructional technology.
- Technology is an integral component of K-12 education. Curricula require students and teachers to access online textbooks and learning resources.
- Jobs are increasingly dependent on technological skills. All post-secondary institutions expect students to be proficient with technology for communication, collaboration, presentation, and information analysis and management.
- The WA State Supreme Court has ordered the Legislature to increase funding for K-12 education. It will likely be several years before BISD receives a significant increase in funds, since priority is given to high poverty schools.

What would happen if the school district did not pass these replacement levies?

- Without a renewal of the EP & O Levy, BISD would have to cut 24% from its operating budget. One of the outcomes would be eliminating the equivalent of 80 full-time staff positions.
- Without a replacement levy for technology, BISD would have to use General Fund dollars to cover the cost of technology systems and equipment. Staff positions and items typically funded by the General Fund would need to be reduced to pay for technology.
These two measures, if approved, would replace levies that expire in December 2014. The Renewal EP & O Levy and Renewal Technology Levy would sustain educational programs, student learning and staffing, and instructional technology support for 3 years (2015-2017). Like other Washington school districts, BISD has never operated without local levy support.

What would these two measures provide?

Renewal Educational Programs & Operations Levy dollars would pay for:
• 24% of BISD’s operating budget.
• 26 FTE certificated staff—11% of teachers, counselors, librarians, specialists, nurses.
• 58 FTE support staff—48% of classroom paraeducators, school secretaries, custodians, bus drivers.
• Special education and remedial programs.
• Curriculum materials and instructional supplies.
• Student transportation.
• Extracurricular activities, such as clubs, interscholastic sports, band, drama.

Renewal Technology Levy would pay for:
• Student computers and technological devices that are now an integral part of the curriculum in all subjects.
• Teacher computers and presentation tools necessary to implement the curriculum, access instructional materials, and carry out required tasks (attendance, grading, etc.).
• Online subscriptions and information systems.
• Hardware and software to differentiate and individualize instruction.
• Equipment and software for students to complete required online state and national tests.
• Technological systems for communication and collaboration.

What would these two measures cost?

• The two proposed renewal levies would replace existing levies approved by voters in 2010. They are not new taxes.
• If both measures are approved, local school taxes for the median home would increase by $7 per month.
• The 2014 levy tax rate for all local school taxes will be $3.54 per $1000 assessed property value.
• The levy tax rate for all local school taxes is projected to be $3.65 per $1000 assessed property value in 2015, $3.63 in 2016, and $3.56 in 2017.
• By law, districts cannot collect more than the specific amount approved by voters.

• The levy tax rate for all local school taxes is projected to be $3.65 per $1000 assessed property value in 2015, $3.63 in 2016, and $3.56 in 2017.
• By law, districts cannot collect more than the specific amount approved by voters.

What would happen to the school tax rates?

• Unlike other local agencies that set a specific tax rate, schools are required to present levies and bonds for a specific dollar amount.
• The County Assessor sets tax rates each year to collect the specified amount.
• When assessed values go up, the tax rate goes down; when assessed values go down, the rate goes up. This ensures the district collects only the dollar amount approved by voters.

Tax exemptions

Seniors and disabled citizens who meet certain income requirements may be exempt from part or all of local school levy taxes. For more information or to find out if you qualify for a property tax exemption, contact the Kitsap County Assessor’s Office at (360) 337-7160.

What is on the February 11, 2014 ballot?

Bainbridge Island School District #303
Proposal No. 1
Renewal of Educational Programs & Operations Levy

The Board of Directors of Bainbridge Island School District No. 303 adopted Resolution No. 01-13-14 concerning a replacement levy for educational programs and operations. This proposition would re-authorize the continuation of levies to support educational programs and services, including teaching, instructional support, school supplies, extracurricular activities, and transportation, and authorize the following excess levies to replace an expiring levy on all taxable property within the District.

<table>

<tr>
<td>2017</td>
<td>$1.81</td>
<td>$9,700,000</td>
</tr>
</tbody>
</table>

Should this proposition be approved?  □ YES  □ NO

Proposal No. 2
Renewal of School Technology Levy

The Board of Directors of Bainbridge Island School District No. 303 adopted Resolution No. 02-13-14 concerning a replacement levy to modernize technology and telecommunications. This proposition would authorize the District to continue modernization of school facilities through the acquisition, installation and improvement of computer technology and telecommunication systems, equipment and facilities, and levy the following excess taxes, to replace an expiring levy, on all taxable property within the District.
