

**Bainbridge Island School District #303
Technology Vision and Planning 2015-2017 & Progress Toward Our Goals**

BISD is steadily progressing toward meeting its technology goals. Here is an update on our progress as of December 2016, mid-way through the term of these planning documents and goals. Progress is noted for each priority area within Productivity and Communications.

Focus Area #5: Productivity and Communications - Progress Toward Our Goals

5.1 Telephone and Voicemail Systems

| Goals | Progress as of December 2016 |
|--|--|
| Provide up-to-date telephone and voicemail systems for district communication needs. | -Adopted MITEL telephone and voicemail systems; upgraded previous 10 year old systems |
| Provide ready access to telephones for all areas in which students may be present | -Placed telephones in classrooms and spaces where students would be expected to be present |

5.2 Networked Copiers and Printers

| Goals | Progress |
|--|---|
| Provide a district-wide networked copier system | -All schools have networked copiers located in school offices and staff work rooms -All schools except one are on a district copier lease agreement |
| Increase efficiencies and decrease costs by installing shared pod-style printers | -2-4 classrooms share a printer, located in mutually accessible area -Decreased the number of printers and increased the print quality or capability |
| Increase opportunities for electronic communication | -G Suite for Education including Google Drive and Gmail |

5.3 Email

| Goals | Progress |
|--|--|
| Provide a reliable, efficient email system for staff | -G Suite for Education with Gmail (@bisd303.org) |

| | |
|---|---|
| Provide a reliable, efficient email system for students | -G Suite for Education with Gmail (@frogrock.org) |
|---|---|

5.4 Notification Systems

| Goals | Progress |
|---|--|
| Provide a reliable emergency notification system for families and staff | -School Messenger used as the emergency notification system for families and staff |
| | |

5.5 District, School and Classroom Websites

| Goals | Progress |
|--|--|
| Provide a coordinated website presence for district, school and classroom webpages | District-wide website presence with Blackboard/Schoolwires with teacher templates for homepages and some consistency from webpage to webpage |
| | |

5.6 Transportation Security and Emergency Preparedness

| Goals | Progress |
|--|---|
| Provide Bus Routing Software | -BISD uses Transfinder Routefinder for routing software |
| Provide GPS Locator Services for Emergency Needs and Bus Routes | -BISD uses Transfinder Busfinder GPS Integration software |
| Provide cameras on all buses for safety and documentation purposes | -Installation of cameras on all buses |

5.7 District-Level Reporting

| Goals | Progress |
|-------|----------|
| | |

| | |
|---|--|
| Provide software and applications to meet communications and reporting needs, and business operations | -G Suite for Education -Microsoft Office Productivity Suite -Adobe Creative Cloud Suite |
| Use a Technology Asset Management and Help Desk System | -All technology hardware is asset tagged and managed through the SchoolDude Asset Management System -All staff can contact the Tech. Dept. Help Desk system, provided by SchoolDude, to receive assistance for technology related matters or inquiries. |

5.8 Office and Support Staff Computers and Training

| Goals | Progress |
|---|--|
| Provide computers for central office and school support staff | -All office type workspaces have desktop computers |
| Provide portable devices and phones to meet work requirements | -All staff who have responsibilities throughout the district have access to portable devices such as laptops, Chromebooks, iPads or cell phones. |
