## Volunteer Program Report

May 2010

In the 41st year of this district program, volunteer involvement is the highest recorded. Involvement in enrichment activities denotes the highest number of volunteer tasks, with the number of classroom tasks close behind. The highest number of hours were spent in classrooms and enrichment, which supports the goal to provide services directly to students and teachers. Philosophically, this is exactly where we want the greatest resources.

Once again, the alignment of volunteer support with district-wide goals appears on page 2.

### Volunteer Highlights

- **74,670** approximate volunteer hours—This is the highest number of hours on record.
- **6,396** approximate volunteer tasks—This also is the highest number on record.
- **Number of volunteer tasks and hours in specified categories—**
