

POLICY 4311: SCHOOL VISITATION

Parents/guardians and prospective parents/guardians are welcome and encouraged to visit schools and classrooms in order to promote communication and mutual understanding about student progress and the district's educational program. Prospective students, other adult residents of the community, and interested educators are also encouraged to visit our schools.

The superintendent will establish guidelines governing school visits that address the importance of establishing and maintaining an open, receptive, and "user-friendly" school environment consistent with the welfare of students and the orderly operation of the educational process.
